# WHY NORF?

**We want to bring products to the crypto community that will change the perception of the crypto world. The simple mechanics of our applications and services will allow more people to join the world of cryptocurrencies as quickly as possible, making the industry richer and more profitable for everyone.**

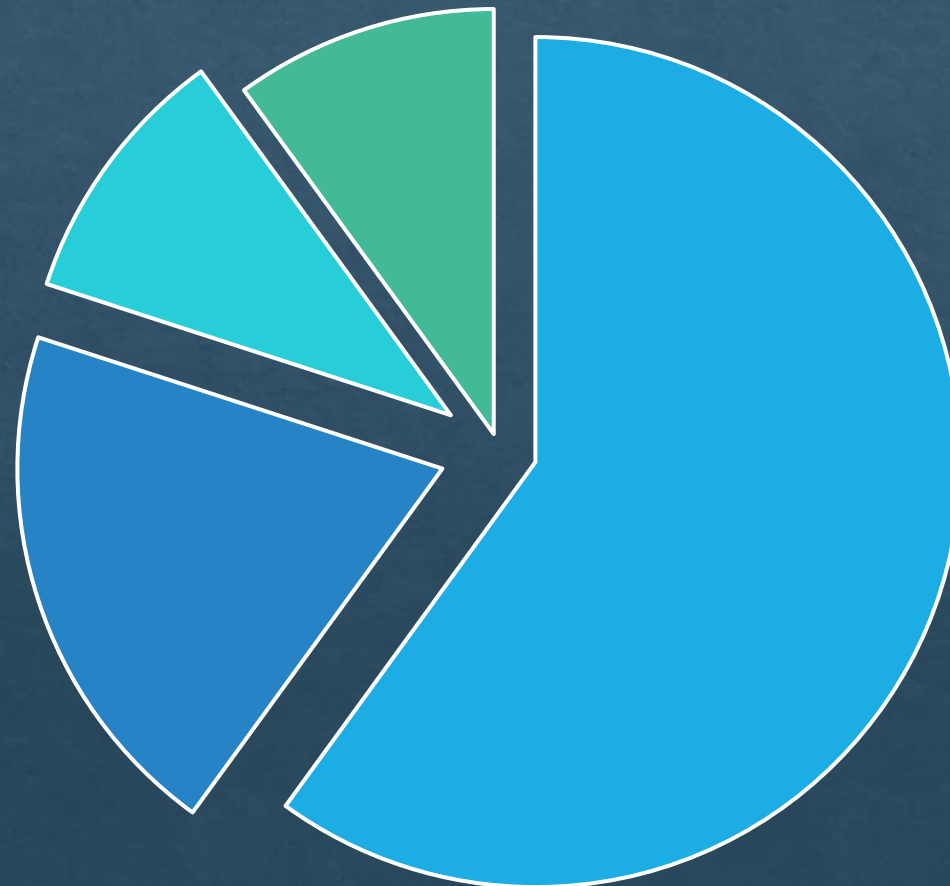

**We are creating and will continue to create something that solves other people's problems. Only suggestions that will interest people and will be useful to them.**

**Our projects will use their own NORF coin as a means of payment, so the coin will never be a meaningless crypto asset lying on your account and changing course due to the mood of exchange users.**

# TOKEN ALLOCATION
